Ashlok Chaudhary

7767012860 **|** chaudharyashlok@gmail.com

Summary

Dedicated and motivated software developer with expertise in backend development, microservices architecture, and cloud-based solutions. Proficient in Java, Node.js, and modern frameworks with a strong understanding of AWS services and scalable system design. Passionate about delivering innovative and secure software solutions.

Skills

Java, JavaScript, TypeScript, C++, Node.js, React, Redux, Bootstrap, HTML, CSS, Spring Boot, MySQL, MongoDB, AWS (Basics), Docker, Kubernetes, Git, CI/CD, Hibernate, Prisma, Data Structures, Problem Solving.

Experience

Full Stack Developer | Talent Corner HR Services | April 2025 – July 2025

Key responsibilities included the development and maintenance of React frontends and Node.js backends and also oversaw application deployment, ensuring smooth and efficient delivery.

Education

- **BSc in Computer Science** | Bhavan's College | 2022 – 2025

Projects

- **Microservices Based E-Commerce Platform (Backend)**: Developed a scalable platform using Apollo GraphQL Federation, AWS CI/CD (CodeCommit, CodeBuild, CodePipeline, CodeDeploy), and ECS Fargate. Implemented secure networking, S3, RDS, ElastiCache for storage/caching, and CloudWatch/SNS for monitoring.
- **SocialPedia:** Built a social media platform with React, Node.js, MongoDB, Redux, and JWT authentication. Features include real-time messaging (WebSockets), user profiles, posts, and responsive design with Bootstrap.
- **File Sharer :** Created a file sharing web app using React, Node.js, and MongoDB. Included QR code generation for downloads and SMTP integration for email sharing.
